

# RUBBER INSULATING SLEEVES

Our Sleeves are made from the same comfortable, flexible rubber as White Gloves and provide maximum coverage and protection for the arms and shoulders. Sleeves are CE marked and manufactured to BS EN 60984.

Horizon stock as standard Regular, Large and Extra Large Class 2 and Class 3 Sleeves in Curved Arm style with a colour combination yellow inside, black outside. Other Classes, Styles and Colours are available on request.

CAT. NO.	CLASS	COLOUR	SIZE	MAX. USE VOLTAGE	TEST VOLTAGE
SLCA-R-20-YB SLCA-L-20-YB SLCA-XL-20-YB	2	Yellow Inside, Black Outside	Regular Large Extra Large	17kV	20kV

## Accessories

Rubber Sleeves are held in place by means of a one piece reinforced sleeve harness and set of positive grip screw type fasteners.

A canvas Sleeve bag is available complete with steel snap for easy storage.

## Glove Talc

Cat. No.	Size
TC-12	Box of 12 x 8oz Bottles

Cooling powder absorbs moisture and perspiration. Minimizes friction and acts as lubricant to prevent sticking. Does not harm skin or reduce dielectric value of Gloves and Sleeves.

## Liquid Cleaner

Cat. No.	Volume
LC-1	1 Gallon
LC-5	5 Gallon

Ideal for cleaning rubber protective equipment. Concentrated, water-based detergent soap formulated with grease cutters. Removes oil, grease and dirt.
