

HASTINGS HOT LINE TOOLS

Hastings provide a broad range of Hot Line Tools manufactured to international standards. All pole is tested to 100kV per foot. Featured below is a brief summary of the

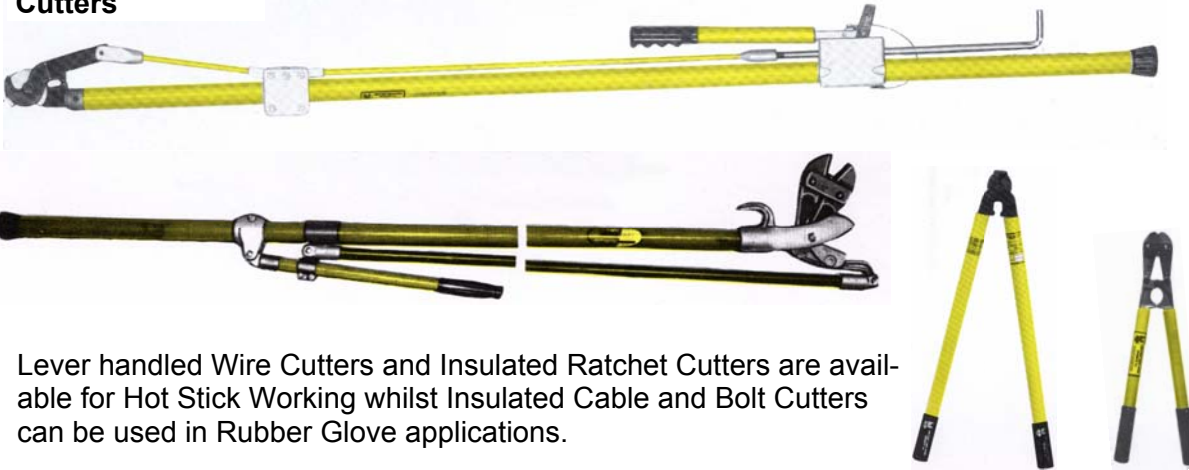

tools available, **please request the Hastings full line catalogue** for further details on individual tools and other related equipment.

Shotgun Sticks

The range of Shotgun Sticks includes Fixed Length, Telescopic, Folding and Sectional designs which can offer operating lengths up to 25ft (7.6m). All Shotgun Sticks feature moulded head design incorporating hanger hook and shielded hook release trigger.

Cutters

Lever handled Wire Cutters and Insulated Ratchet Cutters are available for Hot Stick Working whilst Insulated Cable and Bolt Cutters can be used in Rubber Glove applications.

Link Sticks

A range of Insulated Link Sticks are available including Spiral, Strain, Roller and Hoist which are used to isolate equipment such as Strap Hoists, Ropes and Blocks.

Universal and Tie Sticks

Tools are available with fixed Tie Stick Heads or Universal Heads. A selection of Universal Accessories can be found on page A8.

Other Tools

Other Tools in this range include Conductor Tensioners, Pole Mounted Conductor Supports, Wire Holding Sticks and Wire Tong.
