

SENSORLINK METERS & RECORDERS

Tel: 01275 342700/Fax: 01275 349009

E-mail: enquiries@hor-i-zon.com

AMPSTIK

- High Voltage Ammeter

- $\pm 1\%$ accuracy
- Open CT that rejects stray magnetic fields
- No moving parts
- Single button operation
- Sample and hold measurements
- Flame resistant housing

AMPSTIK PLUS

- High Voltage Ammeter

- $\pm 1\%$ accuracy
- Sample and hold four unique measurements
- Open CT that rejects stray magnetic fields
- No moving parts
- Single button operation
- Flame resistant housing

OHMSTIK

- Live Line Ohmmeter

- Measure microhm resistance on a live high voltage conductor
- Superior measurement compared to infrared thermography
- Measure exact resistance or compare to a nearby conductor
- Simple to use one button operation
- Measures resistance using AC current in the line
- Measures and displays both amps and micro-ohms

QUALSTIK

- Live Line Power Quality Meter

- Slip over a high voltage conductor & collect four power quality measurements
- Measures Amps
- Measures leading or lagging Power Factor
- Measures Total Harmonic Distortion (THD)
- Indicates Direction of Current Flow
- $\pm 1\%$ accuracy
- High voltage rated 500kV

QUALSTIK PLUS

- Power Quality Meter

- Slip over a high voltage conductor & collect four power quality measurements
- Measures Amps
- Measures leading or lagging Power Factor
- Measures Total Harmonic Distortion (THD)
- Indicates Direction of Current Flow
- High voltage rated 500kV
- Store up to 8 sets of readings

RADIO AMPSTIK - Radio Linked

- Multiple Reading Ammeter

- Heads Up Display for instant conformation of the reading
- Records up to four readings
- Operates in the 900 MHz non licensed frequency band
- Mount the Display on the hotstick or hold in your hand
- Remote read out up to 50 feet away
- New ruggedized sensor wider sensor
- New Non Conductive Universal Chuck

VOLTSTIK - Distribution Voltmeter

- Shielded against influence from stray fields
- Auto-ranging digital readout
- Measures true RMS values
- Built-in self test
- Easy connecting accessories

AMCORDER - Recording Ammeter

- Collect and analyze load profiles
- Patented open CT sensor with $\pm 1\%$ accuracy
- Easily clamps to the line in seconds
- Recorded data quickly downloads into the user's PC
- Softlink interface downloads directly into Microsoft Excel

VARCORDER - Amp, Power Factor, & Var Recorder

- Collect and analyze load & power profiles
- Easily clamps to the line in seconds
- Infrared communication with no annoying cables to connect
- Softlink interface downloads directly into Microsoft Excel
- Generate reports and create graphs for profile analysis
