

BUCKET ACCESSORIES

In addition to a full range of Bucket Liners and Accessories PTI also offer specialist products for Bucket enhancement and Bucket Liner protection.

BUCKET ENHANCEMENTS

Our range of Bucket Enhancements includes individual tool holders such as Impact Wrench Holder, Chainsaw Scabbard, Litebox Holder, Pole Saw Holder and also other accessories such as the EZ Step which makes it easier to exit a bucket fitted with a liner and the "Hy-Jacker" which boosts the working height inside a liner by 3" (7.6cm) or 5" (12.7cm).

Impact Wrench Holder
Various models available, inside or outside mount. Also available with integral bit sheath.

EZ Step
The quick and easy way out of an aerial bucket with a liner. Strong, lightweight, impact resistant polycarbonate.

Litebox Holder
Stores Litebox Torch on bucket allowing beam to be directed onto the work place. See page H1 for details of Litebox.

Hy Jacker
Two models add 3" (7.6cm) or 5" (12.7cm) to the bottom of a bucket or liner. Rugged polyethylene shell filled with foam.

Chainsaw Scabbard
Holds all types of Chainsaw.

BUCKET PROTECTION

A range of Scuff Pads is available to protect and prolong the life of your Bucket Liner. Available with a grit type surface in standard or built-in step versions or as a cushioning ergonomic pad. All are durable and have slip resistant finish.

Bucket Lids cover and seal your bucket against rain, ice or snow ensuring bucket is always ready for use. Tru-Fit Lids are rigid and attached by either snap cord or nylon straps. Fit-All Covers are soft and lined with foam and are elasticated.

Scuff Pad with Built-in Step.

Ergonomic Bucket Pad.

Tru-Fit Rigid Bucket Lid with Nylon Straps.

Fit-All Bucket Cover.

For further details and full specification of these and other products in this range please request the PTI Full Line Catalogue
