

VEHICLE ACCESSORIES

PLASTIC SPREADER PADS

Our Plastic Spreader Pads overcome the problems of rot and the delaminating associated with wooden spreader pads. For use where vehicle stabilisers are to be put down on soft ground. Our Spreader Pads are fitted with a rope handle to ensure easy recovery. Available in two sizes 450mm x 450mm, Cat. No. SP-PAD442 and 600mm x 600mm, Cat. No. SP-PAD662.

BOOM COVER SETS

For use on Insulated Aerial Devices where it is important to keep the Fibreglass Boom clean and dry during transportation and storage. The PVC Covers fit snugly to the Boom by means of velcro fastenings and draw cords. Boom Cover Sets are tailor made to your individual requirements.

POLE SOCKS

Used for the safe transport of wood poles, Pole Socks provide high visibility where pole is overhanging the vehicle during transport. Fitted with elasticated cords and adjustable webbing strap ensuring a tight fit on poles from 8" (203mm) to 14" (357mm) dia. Length - 4ft (1.22m).
Cat. No. VSP-14-3S-ST.

INVERTERS & ELECTRIC GENNİ'S

Used to convert the energy stored in 12 or 24 volt batteries into a consistent 230V or 110V AC voltage. Inverters/Electric Genni's are environmentally friendly with no fuel, noise or smoke pollution. They allow use of everyday mains powered equipment or site equipment to be used where no AC power is available. Suitable for leisure, commercial and industrial use.

Inverters are designed to be permanently wired into vehicle electrics and draw from its battery. All models have low battery alarm and low battery shutdown features and input short circuit and thermal protection.

Available in 250W, 500W, 1000W, 1500W and 2500W power output in either 110V or 230V from a 12V and 24V power source.

Electric Genni's are built to the same specification and offer the same features but have a self-contained battery. A truly portable source of energy for mains powered or site equipment.

Available in 500W, 1000W and 2000W power output in either 110V or 230V.
