## Tasco Binoculars

Lightweight and durable these all-purpose binoculars are constructed of fibreglass, reinforced ABS with a hard, plastic covering. Fully coated optics and ruby coated objective lenses enhance the viewing power. Each set of binoculars comes complete with a new style, water resistant, protective skin suit which is tailored to fit and does not have to be removed for viewing.

CAT. NO.	DESCRIPTION
TB3510	All Purpose Binoculars 7 x 35
TB3512	All Purpose Binoculars 8 x 40
TB3514	All Purpose Binoculars 7 x 50
TB3516	All Purpose Binoculars 10 x 50

**MANY OTHER TYPES AND STYLES AVAILABLE ON REQUEST**

## NIGHT VISION BINOCULARS

Perfect for long term night vision observation, the BN5 Binoculars offer 2.4x magnification, a 26° field of view, ocular eye focus, durable rubber armoured finish, neck strap and carry case. Powered by 2 AA Alkaline batteries with a life of up to 6 hours, the BN5 features an infra-red illuminator with a range of up to 50 metres. Typical performance would see a man at 400 metres and a small animal at 50 metres. **Should only be used for night vision.**

## LASER RANGE FINDER MONOCULAR (LRM)

Ideal for measuring tree clearance distance, span lengths and conductor heights the LRM provides instant distance measurements consistently and accurately. Outstanding optics provide a sharp, clear image under all conditions. The LRM utilises a revolutionary digital design. It sends invisible, eye safe laser beam pulses to the target. The return beams are captured by the digital circuitry, the time differential allows the calculation of the distance to the target. Accurate targeting up to a range of 1500m (depending on model). Unit utilises 25mm objective lens and 7x magnification. Will store up to 10 readings. LRM1500SPD will also measure speed of target.

CAT. NO	RANGE
LRM1200	20m - 1200m
LRM1500	20m - 1500m
LRM1500SPD	20m - 1500m (Speed)

## EYE PROTECTION / SUNGLASSES

We offer a wide range of Safety Glasses and Sunglasses including high impact lenses, wraparound style and safety goggles. Manufacturers include Bolle, Astrospec and Selica.
