

CLEANERS AND WAXES

Myquip High Performance Wipes are ideal for cleaning and degreasing equipment used for live working such as Hot Sticks, Rubber Blankets and Linehose and the fibreglass sections of IADs or for removing bitumen and contaminants from underground cables. Available in sealed, pre-packed, self contained pails, wipes are convenient - simply pull out a fresh wipe as and when required. Eliminates the requirement for separate rags and drums of hazardous/flammable solvents. Ideal for field use. Also available in this convenient range of wipes are hand cleaning wipes and graffiti removing wipes.

We also offer Cleaner and Talc for use with Rubber Gloves and Sleeves and special wax and silicon impregnated wiping cloths for maintenance of Hot Line Tools.

STORAGE BAGS AND TOOL HOLDERS

We offer a complete range of vinyl Storage Bags for all Hot Line Tools, By-Pass Jumper Sets, Earthing Sets etc. Featured below is a selection of some of the common bags we supply. Storage Bags can also be tailor made to suit your individual requirements.

Bags have flap with velcro fastening and can be supplied with or without carry handles.

We can also supply a range of Holdalls, Bolt Bags, Tool Frogs and Tool Holders.
